HEAVY VEHICLES en route to WHINNETLEY

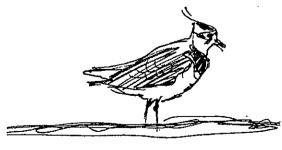

It is within the constitution of the Friends of Haydon Bridge to take an interest in matters of concern to any section of the community. One such subject is that of heavy goods vehicles using minor roads leading to the food packaging station at Whinnetley.

The Committee has been approached by several residents who live in Heugh House Lane and other points on the route of these vehicles. Concern has been expressed regarding the danger to children, the noise and the damage to minor roads totally unsuited to such heavy vehicles.

The Friends of Haydon Bridge have therefore been in communication with Tynedale Council, on this subject, over a period of some months.

We are given to understand that Tynedale Council is currently looking into the problem.

J S Cape Chairman

LETTER TO THE EDITOR

May I please appeal to the person who stole one of my plant pots from my back door to return it? These pots were a Golden Wedding present from our great grand daughter so I would be very grateful to have it back.

This is not the work of children as it would be too heavy for them to carry, but of older boys who should have more sense and respect for pensioners.

N Reed 5 Langley Gardens

THANKYOUS

Old Haydon News

I would like to take this opportunity to thank everyone who helped me to assemble six sets of Haydon News, covering the last twelve months of publication. I am particularly grateful to those who have entrusted me with parts of complete collections but I am well aware of the effort of others who searched cupboards and drawers to find those elusive numbers which seemed to be in especially short supply.

The collection has been submitted as our entry for the Best Village Newsletter competition, a National event, run by the Countryman Magazine. The panel

of judges has John Timpson of the BBC as chairman.

If it seems a bit over ambitious to compete at such a level I would just point out that the judges are looking for the publication which best serves its community. With the addition of the Church Newsletter and the Health Centre News to our staple diet of Parish Council Pickings and general Village information we think we fit the bill admirably.

Gina Richardson Editor

1st Haydon Bridge Scout Group

A big thank-you is owed to Philip Cousin and the regulars of the Haydon Hotel, who kindly donated the proceeds of their New Year's Day games to the Scouts. The event raised over £30.00 and we hope to help create as much fun as was had raising it.

I should also like to take this opportunity to thank Betty and Maurice for their continued support for our organisation over the years. I could not begin to count the amount of funds we have been able to raise at events hosted by them and I am sure many other groups in the Village owe them just as much.

Many Thanks

Ian Foster Group Scout Leader

LANGLEY WI

Members Night at Langley was a resounding success due to a varied programme ranging from Calligraphy to Speedway.

The meeting started off with a demonstration of cake icing by Mrs Dakers. The simple art of making flowers from icing was then attempted by the audience who found it was not so simple after all, but great fun.

A talk on Speedway was then given by Mrs M Nagel, whose son rides for the Newcastle Diamonds. An unusual topic - but not without interest as some members could recall going to watch the Diamonds before the war.

Calligraphy was next on the agenda and this was ably demonstrated by Mrs M Hopkins, who then invited members to "try their hand", which they did with great enjoyment and varying degrees of success.

Member participation featured strongly in this meeting, as befits member's night, but it is anticipated that this level of involve-

ment will continue in the March meeting, where the topic is "Keep Fit".

M Nagel

Haydon Bridge High School Task Force CHARITY DAY

Every year the High School uses the Friday before Spring Bank Holiday Half Term for a sponsored Charity Day. All staff and pupils take part in sponsored events for the whole day to raise money largely for local Charities and organisations to benefit people in the area.

Last year we raised £2600 of which £1000 went to the Yellow Brick Road appeal, £400 has gone towards a bouncy for Haltwhistle Swimming Pool, £250 to Dr Barnardos and £500 to the Tynedale Hospice at Home Fund.

The pupils at school are in the process of deciding where this year's money can go, locally, to benefit many of us.

trees"

HAYDON BRIDGE SILVER BAND

A "Swan Song"

The Haydon Bridge Silver Band was founded in about 1870 and performed both in the village and at functions in the locality until about 15 years ago when the ravages of time and failure to attract new recruits led to the band ceasing to exist.

In 1969 the Band had become a registered charity with the objects of advancing appreciation of music, and the teaching and playing of musical instruments in the Parish of Haydon and in the early 1980's efforts were made to revive the band. Unfortunately these efforts failed and we, the remaining Trustees, recomthat the Haydon Bridge Silver Band Association be wound up and its assets allocated to some similar Association which will use the funds in pursuing similar objects.

It is our recommendation that the remaining assets of the Haydon Bridge Silver Band be allocated to a:

Haydon Bridge Silver Band Memorial Fund

to be used to encourage, foster and aid anyone of the Parish of Haydon in musical pursuits. This fund will be administered by a committee consisting of three of the trustees of the present Haydon Bridge Silver Band Charity, who will be replaced by co-option by the remaining Trustees when one of them dies, moves

away or for any other reason becomes unavailable, plus a representative of the teaching staffs of Shaftoe Trust Primary School, Allendale Middle School and Haydon Bridge High School together with a representative, usually the secretary, of the Shaftoe Trust School Foundation Charity, making 7 persons in all.

The new Fund will apply for Charity Status and if this goes ahead then all the financial assets of the Haydon Bridge Silver Band will be passed over, as they now are consisted, to the new Haydon Bridge Memorial Fund Charity.

These proposals will be put into effect on 31 March 1993 unless we hear of any objections to them.

Dr R High, (on behalf of the Trustees of the Silver Band)

PARISH COUNCIL PICKINGS

26 February Meeting 9 councillors present, no public participation.

A long process of attrition seems at last to have persuaded Tynedale Council (at least) that there is something very deficient about the sewerage system. There is to be a major investigation with a report expected around June this year and with the possibility of any necessary work being

started in 1994. Interim measures are to be taken to deal with sudden excesses of storm water and monitoring TV cameras are being installed to give early warning of problems. Blockages in various places have been found and cleared. Perhaps this is the beginning of the end of our troubles.

The new crash barriers on the Langley bends were mentioned. While everybody agreed they made a big improvement to safety, not everybody thought they looked very nice against the picturesque background. The general view is that they will soon mellow into obscurity.

The County Council is preparing a traffic management scheme to improve the John Martin Street junction with the A69.

It was reported that the Planning Committee has taken note of the controversy over the passage of large trucks to the produce packing station. The relevant Council Department is in dialogue with the landowner.

On the subject of planning applications generally, there was a call for the submitted plans to be more detailed and informative. No information, for instance, other than "brick construction" had been required in relation to the new John Martin Street Houses, with the result that the Parish Council had no opportunity

to register an opinion about the decorative treatment. Indeed it was suggested that Parish Councils needed to be given more information than might be necessary for the Planning Committee itself, in order to enable them to offer useful comment.

We are trying again to be *the* Best Kept Village.

JPR

THE THORNGRAFTON FIND

In August 1837, Thomas Pattinson and some other workmen who were extracting stone from an old quarry in the vicinity of the Long Stone, on Barcombe Hill, made an amazing discovery.

Hidden in the rock they found a bronze boat shaped purse with a lid and spring lock, containing 63 Roman coins, three being of gold and the remainder of silver. It is thought they may have been secreted there during Hadrian's reign when the quarry provided some of the stone for the Wall.

Realizing the value of the find, Thomas Pattinson who apparently lived in Thorngrafton, refused to hand the coins over to the Duke of Northumberland, the rightful owner. Legal proceedings were taken against Pattinson and a writ of enquiry of damage in the case of the

Duke of Northumberland v Thomas Pattinson was executed at the Anchor Inn, Haydon Bridge. The jury returned a verdict of £18 damages against Pattinson.

Pattinson still refused to give up the coins and left Northumberland, leaving them with his brother William. Thomas was imprisoned for a year in Denbighshire as a debtor in the sum of £18. He died after leaving prison.

Twenty one years after the discovery of the coins, John Clayton of Chesters bought them from William Pattinson for "fifty new bright sovereigns" and the purse was lodged in Chesters museum where it can still be seen. collection became known as the Thorngrafton *Find* since the place of dis-Thorncovery was on grafton Common.

Editor's note: This story is told at length in Dr Bruce's "Roman Wall" but we have currently been reminded of it by Mr W D Johnson of Thorngrafton.

THE PHEASANT SHOOT

From the shelter of the woods they came flying Over the guns waiting there they fell spinning and dying.

"All things bright and beautiful"

Fear adds speed to their wings But merciless - the gun sings. "All creatures great and small"

Broken and helpless they lie where they fall A dog gathers them up at its master's call. "All things wise and wonderful"

The sun shines bright on this cruel day As the gunmen enjoy their destructive play. "The Lord God made them all"

I watched the slaughter across the field, Any bird that flew, its fate was sealed. "Each little flower that opens"

I wished I could save those beautiful birds Their deaths really hurt me beyond all words. "Each little bird that sings"

Their broken bodies gathered into pathetic bunches While the gunmen relaxed and enjoyed their lunches. "He made their glowing colours"

The woods are silent now, reeling from the shock Of the guns that spoke death to its resident flock. "He made their tiny wings"

When all had gone home I walked through the trees A slight move in a bush brought me to my knees.

I lifted the bird, it did not struggle or fight Its plumage still beautiful, so smooth and so bright.

Blood came from its beak, it shuddered and died I looked at its beauty and quietly cried.

The words of that hymn, So poignant and good Rang hollow and mean Through that sorrowing wood.

MARCH 1993

TIME FOR RENEWAL

SPRING is a time for renewal. Renewal is a vital, living thing that can turn the world upside down in the twinkling of an eye. Such miracles should not be confined to the great things but permeate every aspect of life.

Life is not a static event but a Godgiven adventure filled with oprortunities. Our living of life, h. ver, is often timid and uncertain: we find life too immense to cope with. As Eliot wrote at the end of Prufrock: '... Till human voices wake us, and we drown.' Our experience of life is all too often like that; we are swamped by life and all that is around us.

Many themes run through the Christian message, but central is the working of the Holy Spirit. It is through the Holy Spirit that we experience Christ in our daily lives. and it is through him that we experience renewal.

If we look at our gardens then we see renewal in its return to life in the spring - we see it as a return of health and vigour. Although it is inspiring to see trees in bud and new shoots developing, the renewal in our gardens doesn't stop there - our gardens go on to produce blooms and fruit.

The same is true in our lives: renewal enables us to become what we should be, it brings about wholeness and fulfilment. By letting the Holy Spirit enter into our lives we can move towards a wholeness that can give us the confidence to deal with aspects of our lives that otherwise might swamp us.

DAVID BRADSHAW

HEALING IS THEME FOR PRAYER DAY

'GOD'S People: Instruments of Healing' is the theme for this year's Women's World Day of Prayer (Friday 5th March). The order of service and background materials have been put together this year by women from Guatemala in central America.

As well as the main worship service, which is in many places. a focus for women from all denominations to meet together, there is a children's service, and a Bible study on Peter and John healing the lame man at the 'Beautiful' Gate.

WARK FOREST EDGE
MELKRIDGE HAYDON BRIDGE WARDEN

CATTON

A FRIENDLY WELCOME - SAME DAY APPOINTMENTS - CHILDREN'S PLAY ROOM - DISPENSING FAMILY PLANNING - WELL PERSON CLINICS - CHILD HEALTH CLINIC - YELLOW FEVER CENTRE

ALL WRAPPED UP

I know it's winter but-

The inventiveness of garment manufacturers, the dictates of fashion and personal comfort all combine to encase the human form in so many layers of clothes that examination of the person within can take a great deal of time.

Hat, scarf, outer waterproof coat, inner warm coat, jacket, jumper, cardigan, shirt, braces, tie, vests 1, 2 and 3 - and that's just the blokes! The variety of undergarments worn by women seems to enlarge with every season Paris and Madonna have a lot to answer for. usly - it would be a great help if, when you ave cause to attend the surgery, you could arrange the layers for ease of access. If you have a chest infection then we shall want to listen to your chest or if you have a pain in a foot then we shall want to see the foot. The surgery is kept at tropical temperatures because people regularly need to be undressed - there is no fear of feeling cold. If you wish to make use of a spare room to shed a layer or two before seeing the doctor or nurse you are most welcome to do so and likewise afterwards we can always make a room available for you to get all the layers back on again.

HEALTH PROMOTION

As I mentioned last year it's all change again in the way that GPs operate. There are now three bands to the health promotion system with two "Chronic Disease Management" or as, asthma and diabetes.

We delieve that we are already doing all of the required things and will therefore have to simply prove that we are doing so. In fact the new guidelines are pitched some distance below what we are already doing but we intend to maintain the present high level of activity.

The only difference which you may notice is that if you have not been seen for some time, are not a new patient within the last three years or have not yet come to a well person check we may ask you a list of questions when we see you and do a few simple measurements like height, weight and blood pressure. The three bands cover smoking, blood pressure and other risk factors for coronary heart disease, strokes, alcohol, exercise and diet.

<u>FUNDHOLDING</u>

As the plans for Fundholding advance I shall try to keep you up to date. At present we have made an application for the three practices together (Allendale, Bellingham and HB). If we are accepted we shall spend this year collecting information to gauge the size of fund we shall need.

The fund is intended to cover certain nonemergency hospital consultations and admissions - especially surgical, drug costs and staff costs. Allendale and HB are already, this year, piloting the purchasing of community nursing, in other words we are ahead of existing Fundholders on this item as all Fundholders will be required to add this to their purchasing from 1994. We may have a single central office at HB where a new member of staff will operate the fund and the associated contracts.

You may have seen in the papers that some Fundholders made a "profit" while others went "bust". Both terms are misleading. Because the scheme is new and so little time was available for those who were in at the start to get it right, some were given sums of money too large or small and in addition some hospitals were unable to send out bills fast or accurately enough. These sort of problems should be less by the time we are up and running. All three practices are economical in their prescribing already and prudent in their referral policies.

So what are the potential benefits? May I make it quite clear that none of the doctors or members of staff receive any direct or indirect financial benefit. We shall be able to negotiate on your behalf to get fast and effective treatment at a wider variety of hospitals. We shall be able to cut waiting times and insist on certain standards of care.

CRYO SURGERY

We had the loan of a gadget to treat warts etc. recently. It certainly seemed useful, the rep even treated a skin tag for me so I can truthfully say that I get some of my own medicine occasionally. We now discover that Bellingham already has a gadget of it's own and this is one of the areas where we shall pool resources. If all three of the associated practices make use of common resources we improve treatment availability and cost effectiveness.

FAMILY PLANNING

We are one of the pilot practices for the distribution of <u>FREE CONDOMS</u> (for three months - so far!). Those needing supplies should see a doctor or nurse. In order to find out how the scheme is being

used we shall ask one or two questions for an anonymous record.

To streamline our FP services we are setting up a special session on the 2nd and 4th Tuesdays of each month between 3.30 and 6.45 with Mary and Karen (both FP trained) and myself (FP certificated). This is for new and existing users. We hope that this will prove useful. FP advice is available in normal surgery times as well.

I have rewritten the eighteen page practice brochure for pill users, anyone wanting a copy is welcome. It is aimed at school age users but has plenty of advice for all. We have attracted quite a lot of people requiring FP advice who are not patients of the practice. You are free to see any

A HUGE SUCCESS!

GP for FP advice.

Our "Help with Smoking" evening was a success with all attending seeming to be keen to have a go at stopping smoking. We wish them well and will give continuing support to their efforts. The patches seem popular and helpful.

May we help YOU too? Just ask!

WHICH FOREST?

Concern has been expressed about the geographical size of the practice and our ability to get to someone in an emergency. Checking an Ordnance Survey map, I find that what I thought was the Kielder Forest edge is in fact the Wark Forest edge - my apologies. The two forests seem to run together so there is the potential for confusion.

FHSA brochure Northumberland health services shows that we cover the smallest area in the county. We agree that having patients a long way away is a bad idea and don't do it - see outline map in the title section above. The most distant patients of neighbouring practices who retain some patients in HB are beyond Blanchland, Riding Mill, Low Row and Woodburn. We are a small, rapidly responding practice, striving to offer the best in all areas of personal healthcare to our own local community. We have only a handful of patients outside the practice boundary.

Small is Beautiful.
